To Whom it may Concern:

I am an employee of the Roy Phillips 66 store, and have been faithfully for the past three years.

I feel the Holly Corporation has lied and deceived the 25 stores they have acquired with the Woods Cross Phillips 66 refinery.

We were told as employees that we were secure in our stores for the next year, while the buyers were given adequate time to evaluate the profits of each store.

Now we are given a letter with approximately three options of what can be done with the stores in Utah, that we were told was a package deal.

I'm a part time worker for Phillips, but for others, this is their main income and jobs that they have worked very hard to become the positions they are in.

If you look at the statistics of all of the stores, everyone of the stores is profitable.

I'm very disappointed in a company that lies and deceived their employees in this manner. I've always been proud of where I work and whom I work for and would appreciate some respect for portraying your company in a positive way.

There are a lot of persons concerned in this decision, and I would like to express the concerns of myself, as well as, other employees of the Utah 25 Phillips 66 stores.

Thank You,
Sincerely,

Colleen Clark
